

## Work History

**UpDraft Brewery, LLC**  
*Production Brewer*  
June 2023 - Nov 2023

**Brewing Equipment:** 7BBL brewhouse, and a 1 BBL Pilot Rig  
While at UpDraft I ran the production of beer through the brewhouse from ordering ingredients, creating recipes, brewing, fermenting, and kegging. I built a brewing software to help keep track of recipes, brewday sheets, kegs, customers, distributions that displayed monthly keg sales and beer volume reports.

**University of Wisconsin-Platteville**  
*Web Developer*  
March 2015 - June 2023

**Software:** Linux, PHP, SQL, JavaScript, HTML, CSS  
Created a new responsive website theme using TailWindCSS, AlpineJS, Microsoft SharePoint Graph APIs and Bootstrap inside the Drupal CMS. This project took many years to complete and included many departmental project planning sessions.

**Brevetto Design**  
*Owner/Web Developer*  
Dec 2005 - March 2015

**Platforms:** WordPress, Drupal  
I designed, created and maintained websites for clients in many different industries including government, food service, industrial manufacturing, aerospace, electrical, photography, home care, non-for-profit and music, I also worked for other advertising agencies as a sub-contractor when they needed a web developer on staff.

**Eclipse, Inc**  
*Web/Media Specialist*  
August 2008 - April 2013

**Knowledge:** SEO, WCAG Accessibility, Google Tag Manager  
At Eclipse, I designed advertisement campaigns and tracked them in Google spreadsheets that fed to Tag Manager. I designed, created and maintained the company website with Ektron CMS which housed their product catalog and technical documentation.

## Education

**University of Wisconsin-Madison**  
Certificate of Applied Marketing
